

29 Resembling a small beanbag, The Pod offers customized support for digital, compact, and SLR cameras. It features a water-resistant nylon exterior, Velcro-sealed contents, and a locking bolt to secure the Pod to your camera's tripod attachment. The compact, lightweight Pod has a circumference of just five inches, and can easily be taken anywhere.

30 The compact, rugged, and durable design of the Pod makes it a perfect travel companion. The Pod is made of water-resistant nylon and features a locking bolt to secure the Pod to your camera's tripod attachment. The Pod is just five inches in circumference and can be taken anywhere.
